

**NEW ZEALAND MATHEMATICS 7**  
**CHAPTER 8, TEST A**

1 Name the following special solids:

a

b

c

[3 marks]

2

For the diagram given:

- a name the solid.
- b list the vertices.
- c name each face and give its shape
- d list the visible edges.

[4 marks]

3 Draw an oblique drawing of a rectangular prism.

5 units long  $\times$  3 units wide  $\times$  2 units high.

[4 marks]

4 a Draw the solid which can be made from the net alongside.

b What is the name given to this solid?

[3 marks]

5

Draw the solid alongside from different views showing the plan, elevation (front) and end elevations.

[3 marks]

6 From these views draw the isometric projection of the solid:
