

Twistor Newsletter No. 26

Contents

Twistors and Conformal Field Theory	M.A. Singer	1
Pretzel Twistor Spaces	R. Penrose	7
A possible role of Vertex Operators in Singer's picture of 4-dim ⁿ CFT	Tsou S.T.	12
Conformal Field Theories and Twistor Diagrams	A.P. Hodges	16
Geometry on $\mathbb{C}P^1$ and the Virosovo Algebra	R.J. Baston	21
The Geometry of Pure Spinors and Invariant Differential Operators in higher dimensions	R.J. Baston	23
A Symplectic Penrose Transform?	R.J. Baston	24
2 dimensional Conformal Invariants	R.J. Baston	24
Twistors and State-Vector Reduction	R. Penrose	25
A Twistor Transform for the Discrete Series: The case of SU(1,2)	E. Dunne & M.G. Eastwood	26
A Conformally Invariant Connection and the Space of Leaves of a Shear Free Congruence	T.N. Bailey	31
Relative Cohomology Power Series, Robinson's Theorem and Multipole Expansions	T.N. Bailey	40
Abstracts		20, 30, 44
