

TWISTOR NEWSLETTER No. 33

Contents

Twistors as Spin 3/2 Charges Continued: $SL(3,C)$ Bundles	
R. Penrose	1
* The Initial Value Problem in General Relativity by Power Series	
V. Thomas	8
* Conformal Singularities and the Weyl Curvature Hypothesis	
R. P. A. C. Newman	11
* Twistor theory and integrability	
L. Mason	18
* The 3-Wave Interaction from the Self-dual Yang Mills Equations	
P. Tod	22
* Twistor diagrams in higher dimensions	
F. Müller	25
* The Quantum Potential -- Possible Origins ?	
R. Jozsa	31
* Update on one extended Regge trajectory	
T. S. Tsun	36
An inverse twistor function	
N. Woodhouse	38
Update on Higher Order Feynman Diagrams	
A. Hodges	41

* Papers given at the birthday seminar for Roger Penrose

Short contributions for TN 34 should be sent to

Thomas von Schroeter
Twistor Newsletter Editor
Mathematical Institute
24--29 St. Giles'
Oxford OX1 3LB
