

Announcement:

Further Advances In Twistor Theory, Vol III: Curved Twistor Spaces.

Editors: L.J. Mason, L.P. Hughston, P.Z. Kobak and K. Pulverer

Contributors: R. Baston, G. Burnett-Stuart, M. Dunajski, M. Eastwood, J. Frauendiener, L. Haslehurst, A. Helfer, R. Horan, J. Isenberg, P.E. Jones, C.N. Kozameh, P.B. Kronheimer, P. Law, C.R. LeBrun, R. Low, E.T. Newman, R. Penrose, G.A.J. Sparling, A.F. Swann, V. Thomas, K.P. Tod, R.S. Ward, N.M.J. Woodhouse, P. Yasskin.

Chapter 1: The nonlinear graviton and related constructions

Chapter 2: Spaces of complex null geodesics

Chapter 3: Hypersurface twistors and Cauchy-Riemann Structures

Chapter 4: Towards a twistor description of a general space-times.

will be published by CRC press in February 2001.
