

TWISTOR NEWSLETTER No. 45

CONTENTS

On extracting the googly information	R. Penrose	1
Twistors and Legendre Transformations	S. Frittelli, F. Hadrovich, L.J. Mason and E.T. Newman	25
Real Lorentzian metrics, from complex half flat solutions	D. Robinson	32
Combinatorics and field theory	C.M. Bender, D.C. Brody and B.K. Meister	36
Classical fields as statistical states	D.C. Brody and L.P. Hugston	40
Solving polynomial equations with spinors	M. Eastwood	44
A conjectured form of the Goldberg-Sachs theorem	A. Trautman	50
Three stories about epsilon	L. Kauffman	52
ASD four manifolds and Frobenius manifolds	G. Sanguinetti and N.M.J. Woodhouse	57
ASD null Kähler metrics with symmetry	M. Dunajski	62
Further Advances In Twistor Theory		66

TN 45 is the last number in the current format. It will also appear online at <http://www.maths.ox.ac.uk//mpg/tn.html>

We would like to thank everyone who has contributed or subscribed to TN over the last twenty five years.
