

## FAQ: "DIFFERENTIAL GALOIS THEORY" TT20

Welcome all to the graduate course "Differential Galois theory"! This FAQ might get updated as the course progresses.

**Q1** Where can I find **lecture notes**?

**A1** Everything I write during the course will be put on the **course website** after the lecture. In addition, I might make typed notes available if need be.

**Q2** I have a **question** during the course. How to ask it?

**A2** Simply type "**Q**" into the chat bar. I will then unmute your microphone so that you can ask your question. **Please keep your microphones muted otherwise!**

**Q3** I have **additional questions** about the course which might be too long for the session. How do I communicate them?

**A3** I plan to stay at the **end of each lecture** for some more minutes – this is an ideal moment to ask questions which couldn't be addressed during the lecture. If you request to **talk to me one-on-one**, then please write me an email with the details of your query, and we schedule a private meeting via Teams.

**Q4** I would like to **broaden** in this course. Is this possible?

**A4** Absolutely! Just get in touch with me via **email**: [nils.matthes@maths.ox.ac.uk](mailto:nils.matthes@maths.ox.ac.uk)
